More scenario's and workshops would be great as these were very good
Very helpful indeed
Study day was very useful I have learnt a lot
Very relevant to our roles - Thank you
Really informative - it would be great to have more time with equipment
Very good course thank you

Neuro was brilliant, equipment was exciting, thank you great study day
Overall a good study day
Could have done with more time with the Neuro but otherwise brilliant day.
Very useful
Equipment training not really covered for Drs elsewhere - thank you

Selection of candidate comments
Good to have local ambulance available
Very useful course
Very well presented
very useful for my clinical practice
I have done many critical care transfers yet this course made me consider lots
Despite having done training previously this was excellent refresher
This study day should be for all critical care staff
